SOFTWARE TOOLS

WORK EXPERIENCE

UI/UX Designer

Nov-2023 to Present

CareCloud MTBC (Islamabad)

- Designed and implemented the UI focusing on creating an intuitive and seamless experience for both iOS and Android users.
- Collaborated closely with the development team to implement custom animations, enhancing the overall user experience.
- Designed the websites, incorporating modern design trends and optimizing for increased user engagement.

UI/UX Designer & 2D Animator

Sep-2022 to Nov-2023

NineSol Technologies (Islamabad)

- Work closely with developers to ensure that the design is implemented correctly and that the product functions as intended. I have a good understanding of front-end development technologies and be able to communicate effectively with developers.
- Responsible for mentoring and coaching junior designers in my team. I have good communication skills and be able to provide constructive feedback and guidance to help them improve their skills.
- Strong understanding of the Google Play Store guidelines and best practices, as well as how to design apps that meet those requirements.
- Conduct user research to better understand the needs and preferences of your target audience. This could involve user surveys, focus groups, usability testing, or other methods of gathering user feedback.

UI/UX Designer

March 2022 to Aug 2022

AppTrick (Rawalpindi)

At AppTrick, I gained hands-on experience in designing interfaces for mobile applications. I worked with a team of experienced designers. This experience provided me with valuable practical experience in UI design and exposure to the latest design tools and technologies.
